

Power Transformer Subcommittee Task Force Assignment

Investigate the need to form a Task Force to continue work on investigations as may be determined during the initial assignment.

- 1. What perceived problems may exist that are not addressed in existing papers, standards or guides?**
- 2. What would the objective of the Task Force if it were to continue beyond the investigation stage?**
- 3. What is the expected output that would come from the TF that would be of use to the Power Transformer group or the industry as a whole involving power transformers?**
- 4. Is there readily identifiable the need for a Guide or Standard that is needed for power transformers in connection with PV generator panels?**
